

UVA COVID Tracker 2/19/21 Updates 4pm M-F

This tool tracks the progress of the coronavirus in the UVA community, specifically on Grounds and at UVA Health, and reflects test results from UVA Health Analytics, Student Health, Employee Health, LetsGetChecked and saliva testing.

[Summary](#)
[History](#)

UVA Overall

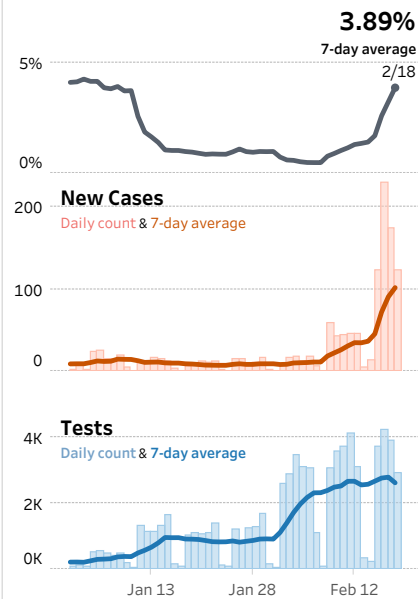

All Faculty, Staff, Students & Contract Employees

Yesterday New Cases	Active Cases	Spring Cases	Fall Cases
123	844	1,272	1,548

Weekly Average new cases per day				
132	This week	2/14	2/18	•
35	Last week	2/7	2/13	
11	2 weeks ago	1/31	2/6	
9	3 weeks ago	1/24	1/30

Definitions

New Cases are people who have a positive test result for COVID-19.

Active Cases are new cases with a positive test during the past 10 days who require isolation on or off Grounds.

Pre-arrival testing is testing that is conducted by students before they arrive at UVA. These are not included in the total number of positive student cases.

Positivity Rate is the percentage of people with positive results out of all people tested.

Hospital Statistics are from UVA Health and represent all COVID+ patients who have been hospitalized.

Testing

Tests for Faculty, Staff, Students and Contract Employees

People tested shows the number of people who are tested in a day who received a UVA-provided test and had a result (either positive or negative). Tests may be completed by UVA Health Lab or LetsGetChecked. These represent only tests administered or provided by UVA. Tests taken outside the University are not included.

All Tests

Total Number of Tests means any testing by UVA including UVA Health Lab, LetsGetChecked and saliva tests. This includes faculty, staff, students, contract employees, patients at UVA Health and other community outreach.
