

# George Mason COVID-19 Dashboard

Student Data Last Updated On: 9/23/2020

Employee Data Last Updated On: 9/23/2020

|       |  |
|-------|--|
| Notes | Both student and employee test results combine surveillance data with self-reported data.  |
|       | To reflect the most recent testing results, the data shown below generally cover the most recent three weeks, including the current week.  |
|       | Dashboard figures below represent individual tests, not individual students/employees; each student/employee may be tested more than once. All figures are subject to change as new data become available. |
|       | The week of 9/20 shows an increase in student positives due to the full testing of 2,700+ residential students conducted from 9/15 to 9/18.  |

|   |            |           |          |            |                               |  |                                  |  |                                   |  |
