## Harrisonburg Cumulative Case Count

(1) According to JMU. Calculated as total positive self-reported cases + positive tests from UHC

(2) According to JMU. Calculated as # of cumulative positive students / JMU student body size

(3) According to the Virginia Department of Health

(4) According to JMU

(5) According to the Virginia Department of Health, filtered by ZIP code 22807, which is exclusive to JMU. It is possible that this figure includes some self-reported cases, as the Virginia Department of Health records cases by where the individual lives, not necessarily where the individual is tested.

(6) According to JMU. This positivity rate is different from JMU's positivity rate because it only includes testing beginning August 17th, 2020. This is because all 467 tests conducted before that date were athletes, the majority of which were quarantined and consistently tested...
