on 3/29

### New Hospitalizations

## UVA Health Lab

Time to Complete Test

12 hrs

on average  
3/23 - 3/29/21

## All UVA Tests

Total Number of Tests

259,449

Since 8/17/20

## Resources

Virginia Health Department (VDH) [COVID-19 Blue Ridge Health District](#)

## Definitions

**New Cases** are people who have a positive test result for COVID-19.

**Active Cases** are new cases with a positive test during the past 10 days who require isolation on or off Grounds.

**Pre-arrival testing** is testing that is conducted by students before they arrive at UVA. These are not included in the total number of positive student cases.

**Positivity Rate** is the percentage of people with positive results out of all people tested.

**Hospital Statistics** are from UVA Health and represent all COVID+ patients who have been hospitalized.

## Testing

Tests for Faculty, Staff, Students and Contract Employees

**People tested** shows the number of people who are tested in a day who received a UVA-provided test and had a result (either positive or negative). Tests may be completed by UVA Health Lab or LetsGetChecked. These represent only tests administered or provided by UVA. Tests taken outside the University are not included.

### All Tests

**Total Number of Tests** means any testing by UVA including UVA Health Lab, LetsGetChecked and saliva tests. This includes faculty, staff, students, contract employees, patients at UVA Health and other community outreach.
